

Secret Places In Mazatlan Mexico For Vacation

Written by: Owen Walcher
May, 2011

Mazatlan is a city in the state of Sinaloa and is considered to be the second largest city, with Culiacan as the biggest. If you are traveling to Mazatlan Mexico on vacation, there are tons of things you can do and fun activities you can participate in. Known as the "Mexican Riviera", Mazatlan has excellent landscaping, beaches that are a sight to behold and numerous lavish resorts on the island.

The beach and water. Mazatlan Mexico vacation goers often hit the beach because of its golden sands that span for ten miles. It is ideal for sun tanning and basically lazing off the entire day. Other than sun bathing, one can do some surfing on the high waves of the water. However, the only downside is due to its popularity, the Mazatlan beach can get very crowded at times especially during peak season.

Fishing. The city is very popular among enthusiasts and is Mexico's most popular location for sport fishing. You can rent fishing boats that are available year-round and catch fish off the coast of the region. For your benefit, some of the fish that you might be able to catch are marlin, tuna, grouper, sailfish and Dorado. You can even have a local restaurant prepare the fish you caught and have it served to you for lunch!

Bullfighting. Being able to watch a bullfight is one of the most artistic and exhilarating experiences you can partake in during your stay in Mazatlan. Bullfighting is part of Mexico's rich history and showcases skill, courage and form during the event. The bullfighting events are held on Sundays at the Plaza Monumental in the city. Other than bullfights, you can also watch a rodeo in the same area during summertime.

Shopping. No one travels to a foreign place without doing some shopping. Mazatlan has numerous shopping centers such as the Mega and La Gran Plaza. These shopping centers contain a lot of different stores that you can shop in, as well as having small restaurants and food courts that feature Mexican, American and Asian cuisine. If you do not want to shop, you can stop by the movie theater and relax by watching a film from the choices in the three screening rooms it offers.

(...) There is literally no end to the things you can do and experience in Mazatlan.
